Top 10 places to live

Why work with us?

Whether you are starting out on your GP journey and actively looking for a practice with a strong track record in supporting new GPs, or you are an experienced GP looking for a new challenge. Frome Medical Practice offers the chance to develop a special interest or widen your portfolio career. We would like to hear from you.

We are launching a new rolling recruitment programme. The aim is to support and grow our current patient list of nearly 30,000 patients. We are also passionate about providing a wide range of enhanced services to our local community.

Our GPs are highly valued and offered a competitive salary and a generous holiday entitlement. As a practice we run a telephone triage model called Patient Connect.

The new GP's will have the opportunity to work with a vast array of highly skilled supportive health professionals in a forward thinking environment. Our highly skilled team of nurse practitioners and mental health nurse practitioners are here to support your workload during duty, for palliative care and nursing home visits.

Frome also offers you variety in your day. This might be through working as part our fracture clinic, supporting our young person's clinic, or working on assessment beds as part of our contract with the local hospital next door. In addition we have an on-site operating theatre for minor operations. The health visitor team and district nurses are all located under the same roof, meaning there is a real sense of services working together.

We asked our current GPs what they most valued about working with us, this is what they said:

"Frome offers the opportunity for a variety of activity with different blocks in the day: consults, home visits, scripts, duty, education, team meetings and assessment beds"

"Our large catchment population means we work with diverse demographics and a mixture of disease"

"We have a great buddy system so you don't return to too much admin if you are away"

"There is a great café with excellent cappuccinos, not to mention free onsite parking"

"I love that there is a gym onsite with shower facilities!"

"The friendly and supportive staff team"

All in our community

Frome is a thriving market town in Somerset with a strong community ethos. The Times, Telegraph and Sunday Times have all ranked it as one of the top 10 places in the UK to live and the Sunday Times recently voted it as the best place in the South West.

Recent national media coverage has described Frome as "The town that's found a cure for illness" and actively promotes how working with the community Frome Medical Centre has significantly reduced hospital admissions. www.fromemedicalpractice.co.uk/news/

Our Frome Model of Enhanced Primary Care is something we are all very proud of and is an example of innovation at its best. Our dynamic health connectors team is based in the practice and offers our GPs signposting opportunities that truly make a difference to patients. The ability to sign post to community projects and services through the health connector team has not only put Frome firmly on the UK map but also highlights what can happen when a medical centre fully links with its community to offer care and support.
